VINYLUX™

Pedicures

Choose from one of our four pedicure treatments below;

Basic Pedicure

25-30 minutes 20€

A quick, dry pedicure ideal for regular upkeep. Nails and cuticles are carefully trimmed and shaped, leaving your feet looking clean and well-groomed. Perfect for those short on time who still want a tidy, refreshed look.

Full Pedicure

45-55 minutes 30€

This classic pedicure begins with a soothing foot soak followed by thorough buffing of hard skin. Nails and cuticles are trimmed and shaped, and a revitalising foot scrub exfoliates dead skin. The treatment is completed with a relaxing foot massage, leaving your feet soft, smooth, and refreshed.

Luxury Pedicure

65-75 minutes 40€

Designed for deeper relaxation and care, this treatment includes everything from the Full Pedicure - foot soak, hard skin removal, exfoliation, nail and cuticle care - plus a rich foot masque to hydrate and soothe the skin. A longer massage for both the foot and lower leg promotes circulation and adds a touch of indulgence.

Ultimate Pedicure

85-90 minutes 50€

The ultimate pampering experience for your feet. This deluxe treatment includes a foot soak, intensive hard skin buffing, exfoliation, and complete nail and cuticle care. It also features a nourishing foot masque, extended foot and lower leg massage, and finishes with a warm paraffin wax treatment to deeply hydrate and rejuvenate tired feet. Ideal for dry skin, aching feet, or anyone in need of serious self-care.

Add polish if desired:

- Vinylux Weekly (normal) polish – add 5€
- Shellac/Semilac (semipermanent) polish – add 10€

Callus Peel

The Callus Peel treatment is designed to safely and effectively soften and remove hard, dry callused skin from the feet. Specially formulated skin-softening patches are applied to target areas before the softened skin is gently removed, revealing feet that feel noticeably smoother, softer and more comfortable.

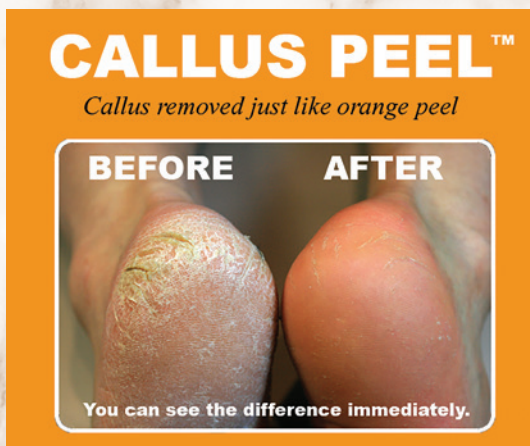

Visible results can often be achieved after just one treatment. However, clients with persistent or heavily built-up calluses may require a course of treatments followed by regular maintenance appointments for long-lasting results.

Aftercare Advice

- Avoid swimming pools, hot tubs and prolonged soaking of the feet for at least 30 minutes after your treatment.
- Moisturise your feet daily with the recommended home care product to help maintain soft, healthy skin.
- Regular use of a foot file between appointments (only if advised by your therapist) can help reduce future build-up.
- Wear comfortable, well-fitting footwear where possible to minimise pressure and friction.
- Follow the personalised home care advice provided by your therapist for the best long-term results.

Please note: A Callus Peel is a cosmetic treatment designed to improve the appearance and comfort of the feet. It is not intended to diagnose or treat medical foot conditions.

Recommended: Every 4–6 weeks as part of your regular foot care routine to keep feet looking and feeling their best..

THREADING – A Gentle & Precise Hair Removal Technique

Threading is an ancient hair removal method that uses a twisted cotton thread to carefully remove facial hair and shape the eyebrows. By rolling the thread over the skin, the therapist lifts hair directly from the follicle, ensuring a precise and effective result.

This technique is particularly beneficial for those with sensitive skin; who may experience redness after waxing; or for individuals whose skin has become thinner due to age or certain medications.

As a gentler alternative to waxing, threading helps protect delicate facial skin while still providing long-lasting hair removal. It removes hair from the root, leaving skin smooth and hair-free for up to 4-6 weeks.

Patch Testing – Your Safety First

A patch test makes sure you don't have any allergic reactions to our eye treatment products, including brow and lash tinting, lash extensions, and lash lifts.

All new clients need a patch test at least 48 hours before their appointment, as reactions can take time to show.

If you haven't had a treatment with us in 6-12 months, we recommend a new patch test as sensitivities can change.

A signed patch test is required before treatment — your safety always comes first.

Classic Lashes Treatment

90-120 minutes **80€**

Enhance your natural lashes with individually applied extensions for added length, depth, and soft fullness.

A timeless, natural-looking finish that lasts up to 8 weeks with proper maintenance.

Classic Lashes Top Up

30 – 60 minutes **From 35€**

Recommended every 2–3 weeks to maintain fullness and keep your lashes looking their best. Regular maintenance and proper aftercare are essential to preserve both your extensions and natural lash health.

CLASSIC LASHES AFTERCARE

To keep your Classic Lashes looking flawless, we recommend scheduling professional top-up treatments every 2-3 weeks.

Why Regular Top-Ups?

Your natural lashes go through a 90-day lifecycle and shed continuously. As they fall, your lash extensions will naturally come off as well. Regular maintenance ensures new extensions are applied where natural lashes have shed, keeping your look fresh and full.

Aftercare Tips for Your Classic Lashes

To maintain the best results and protect your lash extensions, follow these simple aftercare instructions:

- First 48 Hours: Avoid water contact with your lashes.
- 2 Days After Treatment: Refrain from steaming your face, swimming, or using hot water to wash your face.
- Mascara & Makeup: Do not use waterproof mascara, and avoid oily makeup removers.
- Lash Care: Never curl your lash extensions with a lash curler, and avoid perming them.
- Washing Face: When washing your face, gently pat your lashes dry. Avoid rubbing your eyes.
- Lash Protection: Be mindful not to manipulate your lashes when sleeping, applying makeup, or washing your face.

Volume Lashes

90 -120 minutes - depending on style! **95€**

A semi-permanent lash treatment creating soft, voluminous fullness with a beautifully fluffy finish. Lightweight, multi-length fans are tailored to your desired look — from refined everyday volume to soft glamour.

Results last up to 8 weeks with regular maintenance.

Volume Lashes Top Up

30-60 minutes **From 45€**

Maintenance checks are recommended every 14 to 21 days after your eyelash extensions have been applied.

AFTER YOUR VOLUME LASHES TREATMENT

- For the first 48 hours, avoid getting your lashes wet to allow the adhesive to fully set.
- Stay away from steam, saunas, and swimming for 48 hours post-treatment—this includes heat from ovens and steam from kettles.
- Refrain from using mascara, as it can cause the lash fans to close and affect the results of your treatment.
- It's best to avoid liquid eyeliners, as they may interfere with the lashes.
- Only use oil-free makeup remover (we recommend our specially formulated remover for volume lash extensions).
- Be mindful of how you sleep - sleeping face down may impact the longevity and appearance of your lashes.
- Do not use lash curlers, as they can cause your lashes to break.
- Avoid rubbing or stroking your lashes, as this can transfer oil and bacteria onto them.
- When cleansing, moisturizing, or applying makeup, be careful not to manipulate your lashes into different positions, as this could cause them to loosen or fall off.

- Since volume lashes are applied with ultra-fine extensions, we don't recommend using conditioning serums, as they may cause the lash fans to stick together.
- Brush your lashes daily with a disposable mascara wand to keep the fans looking their best.

Hybrid lashes mix

90-120 minutes - depending on style required **85€**

Want a mix of classic individuals and volume lashes? Hybrid lashes are a combination of the two different lash applications rolled into one set of gorgeous lashes. These aren't as full as volume lashes but give a little extra va-va-voom to classic individual lashes!

Frequently Asked Questions About Lash extensions

Your lifestyle

While eyelash extensions are water-resistant and can handle moderate exposure to the elements, the bond between the extensions and your natural lashes isn't indestructible. Sleeping on your face or side can cause friction against your pillow, potentially leading to early lash loss. This is normal, as it's impossible to avoid some shedding while you sleep. Additionally, factors like diet, medication, and hormonal changes can impact the natural shedding cycle of your lashes. Please inform us if you're on any medication or have any medical conditions before your treatment.

How Long Do the Lashes Last?

Lash extensions typically last 3-4 weeks from application, but with regular touch-ups every 2-3 weeks, they can last up to 8-12 weeks or longer.

Do the Lashes Come in Different Lengths?

Yes! You can choose the best length for your natural lashes and desired look, in consultation with your lash therapist. Options range from a soft, natural effect to a more glamorous, defined look. Lash extensions are available in lengths from 6mm to 14mm.

Can I Have Lash Extensions if I Wear Contact Lenses?

Absolutely! There's no problem wearing contact lenses, but for your comfort, we ask that you remove them before the treatment.

Are the Lashes Good for Holidays?

Yes, they're perfect for holidays! You can swim and shower without worrying about your lashes. They'll stay beautiful by the beach or pool, giving you a mascara-like look at all times.

Can I Use Makeup?

Yes, but your eye products need to be oil-free. This includes makeup, cleansers, and mascara. Avoid scrubbing the lashes, as anything with oil can weaken the adhesive. Lash extensions are delicate and should be treated with care. There's no need for mascara, but you can use a water-based mascara on the tips of your lashes for added definition.

Can I Exercise with Lash Extensions?

Yes, you can shower, exercise, and even swim without worrying about your lashes falling out. However, frequent exposure to chlorinated water (e.g., competitive swimming) or regular facials/steam room use may cause premature extension loss.

Make Up Services

Since 2008, our salon has been proudly serving bridal parties and their families in Nerja, and we understand the importance of your beauty and makeup needs for your special day.

If you're interested in our wedding services, please reach out to us via email at **weddings@beautybykatienerja.com** or call us at **(0034) 618412066**. Once we confirm availability for your wedding date, we can discuss your options, requirements, and pricing. For brides-to-be, we highly recommend booking a makeup trial before the big day to ensure everything is perfect.
